

CENTER FIRE RIFLES - contd.

MODEL 700 "BDL" VARMINT GRADE

Calibers 222 Remington, 223 Remington,
22-250 Remington, 6mm Remington and
243 Winchester

Committee Action

The committee approved the recommended accuracy specifications for the proposed varmint rifles.

The economics are to be updated. Management approval to release to production is to be requested.

MODEL 700 "ADL" GRADE

R & D is completing models of the proposed attachment of the Magazine to the Receiver to confirm the design. Model drawings will then be released to the plant for processing. The improvement is to be effected as promptly as possible.

Committee Action

This item will be dropped by the committee.

RIM FIRE RIFLES

MODEL 40XB STOCK

Walnut wood prototypes of the proposed Stock change have been completed. However, since the use of birch is being considered, new models will be made for review with government procurement sources.
