

SHOTGUNS - contd.MODEL 1100 AUTOLOADING SHOTGUN - contd.Fore End - contd.Committee Action

R & D is to continue the design improvement study.

The Ilion plant is to review Model 1100 packaging, especially export orders, to reduce breakages in shipping.

CENTER FIRE RIFLESMODEL 600 MAGNUM BOLT ACTION RIFLECaliber 6.5mm Remington

Marketing has favorable reports from four writers. The rifles were shipped May 17 so only initial reports have been received.

MODEL 700 "BDL" VARMINT RIFLE

A method of producing the starting blank for the Varmint Barrel using the GFM machine has been established. Tooling is being designed. Production to warehouse should start in November as scheduled.

Committee Action

Reporting on the varmint rifle status will be dropped until production sample rifles are available for approval by the committee.
