

TRAPS - contd.MODEL 100T & 200S TRAPS - contd.

Initial shipment of improved brakes is promised in June.

TOURNAMENT TRAPS

R & D with Marketing consultation are developing a hand loading auto-angling pneumatic Tournament Trap. Specifications for breech loading and methods of obtaining target spin have been resolved. A wood mockup demonstration model should be completed by the end of May. Air compressor capacity depends on the cycle time requirements.

The meeting closed at 11:00 a.m. The next meeting is scheduled to be in Ilion on Thursday, June 13, 1968 at 10:00 a.m.
