

TRAPS

Samples of traps being manufactured are being evaluated. These are:

Remington Model 39	
Remington Model 41	Auto-angling
Western Model V1562A	Skeet Trap
Western Model 1524A	Tournament Trap
Nimrod	Straight Trap
Paselle	International Trap
Swedish Model - Copy of Western Skeet Trap	
Experimental auto-angling trap made in Wisconsin (obtained from Bridgeport)	
Rossini	Auto-angling Trap
(on order - made in Italy)	

The suggestion was made that the NRA be contacted to determine if there are any other traps that should be evaluated.

A report will be made at the June meeting.

TARGET TELESCOPES

R & D reported that five (5) sets of lenses have been received. Tooling is being completed. Shipment of rifles and scopes to writers should be made in April. To date, orders have been received for approximately one hundred and fifty (150) scopes.

BENCH REST BULLETS

R & D reported that die sets are being designed. The press is promised for shipment in August. Space has been provided for the installation.

COMMEMORATIVE RIFLES

As part of the R & D presentation at the March 1969 meeting, the proposal was made to utilize available time on the R & D N/C machines to fabricate limited quantities of replicas of
