SHOTGUNS - contd.White Line Spacers - contd.

The Model 870 small gauge Stock production with the white line spacers started the first part of December.

Production reported there will not be any significant carry-over of Model 870 guns without white line spacers by the end of 1969.

Committee Action:

Reporting on this item will be dropped.

MODEL 870, 28-410 GAUGE  
MODEL 1100, 28-410 GAUGE

R & D discussed small gauge shotgun performance with the contact at Federal. The repaired Model 1100, 410 gauge gun shoots all Federal shells including paper. They have experienced few field problems. Federal also advised of evaluations being made of two other powders for their shells.

The Plant reported the following production to warehouse figures:

Model 870	410 gauge field grade	4500
	28 gauge field grade	1971
	Matched Pairs	1161
Model 1100	410 gauge field grade	2718
	28 gauge field grade	1009
	Matched Pairs	2928

Total small gauge guns produced  
to warehouse to date ..... 18,376

Marketing reported that through December 17, the following additional orders for Matched Pairs had been received:

Model 870	269
Model 1100	1023
Total	1291
