STOMER'S REQUEST *See on felt closing*

IN FAULT *Cannot duplicate complaint. However, trigger assembly has been tested outside of factory. Trigger pull manual at 25 pounds - this is below our minimum spec; even though it is a new engagement does not affect, but appears O.K. Removal of bonded action from stock revealed not on bottom of barrel, on action and on trigger assembly. See-fig. O.K.*

Clean up action & barrel, replace trigger assembly at N/C, per gesture of good will

Please expedite, per K.O.G.
