

GENERAL - contd.

A Model 870 Stock, for possible police use, is now in test.

The development appears promising and work will continue. Uniform coloring of the material through the Stock will be attempted.

BENCH REST BULLETS

R & D reported that the fourth lot of 100,000 bullets has been shipped. Production is approaching 200,000 per month. The cost break-even point is 217,000 per month. Arrangements are being made for replacing the cut-off machine which has continued to be a problem with breakdowns.

Marketing reported that there has been one good article written on the bullet. The bullet is selling. 83

TRAPSELECTRIC TOURNAMENT TRAP  
(Introduction 1973)

Production reported that Custom Shop assembly of the electric autoloading trap will start in the fourth quarter.

SWEDISH TRAPS

No new developments were reported.

SEMI-ANNUAL FIREARMS DEVELOPMENT SCHEDULE

The revised Semi-Annual Firearms Development Schedule was reviewed and some dates were changed.

The Chairman asked if everyone was sure that the January, 1973 introduction of The 3200 Shotgun would be met. There were no negative replies.

The meeting adjourned at 10:55 a.m. The next meeting is scheduled to be at Ilion at 11:00 a.m. on Friday, May 19, 1972.
