

GENERAL

R & D showed samples of Model 552 Stocks and Fore-ends made of polyurethane foam material. A \$2.21 cost savings per rifle is indicated. Appearance was good.

Marketing is interested in trying this material on Model 870 Police Gun Stocks.

The Operations Committee agreed that R & D should go ahead with testing of these Stocks and Fore-ends.

The proposed Operations Committee Meeting schedule for 1973 was reviewed and revised.

The meeting adjourned at 1:07 p.m. The next meeting will be on Wednesday, January 24, 1973 at 10 a.m. at the Horizon Hotel, Oneida County Airport, Utica, New York.
