

BENCH REST BULLETS - contd.

Marketing reported that 3/4 million bullets have been shipped and there is a 3/4 million backlog.

A new package is being considered for the bullet. Final design of the package is to be done by the consultant to be certain it is compatible with the new packaging program.

TRAPSELECTRIC TOURNAMENT TRAP

(Introduction 1973)

R & D reported that 30 traps have been assembled and 11 have been shipped. The polyurethane throwing arm material from the original vendor is too soft. New material is being obtained from another vendor.

Marketing requested that final printed copy of the instruction manual be expedited.

REMINGTON SKEET TRAP

(Introduction 1974)

R & D reported that target path consistency with the prototype skeet trap is not yet adequate. Development work continues.

The meeting adjourned at 11:26 a.m. The next meeting will be at 11:00 a.m. on Thursday, October 18, 1973 at 11:00 a.m.
