CUSTOMER'S REQUEST "this rifle fires when the bolt is closed "hard" "

MAIN FAULT	REPAIRMAN	PROOF	CLEAN	TEST	TARGET	PATTERN
Note: As received, trigger guard improperly installed - may not properly catch & floor plate warped. Firing pin will follow - down when bolt slammed closed. Appears trigger assembly has been improperly adjusted at factory. Old style assembly - new rear & safety catch.	Offer to replace trigger assembly with new one (with bolt lock) at a nominal price as gesture of good-will. Rifle is 28 years old.
