Remington Manufacturing and Service

---

I HAVE BEEN AN OWNER OF Remington Products FOR MOST OF MY HUNTING CAREER. I HAVE NEVER HAD ANY PROBLEMS OR MALFUNCTIONS WITH YOUR PRODUCT, AND HAVE ALWAYS BRAGGED ABOUT THEIR DEPENDABILITY.

ABOUT TWO YEARS AGO I PURCHASED A REMINGTON 700 BDL IN 2506 CALIBER. THIS WEAPON WAS TO BE BOTH MY VARMINT AND WHITETAIL GUN.

DURING THE PENNSYLVANIA DEER SEASON I WAS FORTUNATE ENOUGH TO SEE A BEAUTIFUL 6 POINT BUCK WALKING TOWARDS ME, APPROXIMATELY 100 YDS AWAY. AS THE DEER PRESENTED THE PERFECT SHOT, I SQUEEZED THE TRIGGER AND HEARD A LOUD CLICK. BELIEVING THAT I MAY NOT HAVE CHAMBERED A ROUND, I BROUGHT THE WEAPON DOWN TO MY SIDE TO CHAMBER ONE. AS THE WEAPON REACHED MY HIP IT FIRED. THE BUCK BEGAN TO RUN AND I QUICKLY CHAMBERED ANOTHER ROUND. BUT, AS THE BOLT CLOSED, THE GUN WENT OFF A SECOND TIME, LUCKILY THE BULLET WENT INTO THE TREE TOPS.

BY THIS TIME THE BUCK WAS IN ANOTHER COUNTY, BUT THE LOSS OF THE DEER WAS NOT MY CONCERN, HOWEVER MY CONCERN IS THAT SOMEONE COULD HAVE BEEN KILLED OR SERIOUSLY INJURED BY MY Remington.

I DO NOT UNDERSTAND WHY MY REMINGTON WOULD ACCIDENTALLY DISCHARGE. ALL OF MY REMINGTONS (I OWN 9 OF THEM) HAVE ALWAYS BEEN DEPENDABLE AND ABOVE ALL SAFE.

now I'm at the Bank where I do not
