

TRAPS - contd.

## 3. Pro Master:

This is a super-fine model which is auto-angling and auto-elevating to give the serious shooter or the beginner a trap which is fun to shoot over. All features of above trap plus auto-cocking.

This trap is a grade that does not exist in the line now.

This proposed program was agreed to with Marketing prior to the meeting.

Committee Action:

The Operations Committee accepted the proposed change in scope of the new mechanical trap program. Release to production will depend upon presentation of acceptable economics.

SKEET TRAP

(Introduction 1976 - revised from June, 1975)

The Marketing report on the skeet trap is Exhibit 3.

Production reported that product costs on a full book and on a cash basis have been provided to Marketing. Economics will be determined for the proposed volumes and selling prices.

Committee Action:

The Operations Committee accepted the change in introduction date and the proposed field testing program for the skeet trap.

The meeting adjourned at 1:05 p.m. The next meeting will be at Ilion on Friday, March 21, 1975 at 11 a.m.
