OPERATIONS COMMITTEE

(Product Safety Sub-Committee)

Bridgeport, Connecticut March 24, 1972

TO:	PRODUCT	SAFETY	SUB-COMMITTEE	OF	OPERATIONS	COMMITTEE

FROM: T.J. SHARPE, SECRETARY

CALIBER .270 WINCHESTER WITH 130 GRAIN PSP BULLET
RECALL PROGRAM

Request Product Safety Sub-Committee members, listed below review the attached correspondence. It is proposed to terminate the recall program for Lots LU28WD, LU29WD, LU30WD, LU31WD, LU02ID and LU03ID of this product and take no further action unless future incidents warrant it. The Manager-Quality recommends that except for Lot LU03ID, the remaining rounds of the recalled lots, in which no contamination was found in an average of 20% full breakdown inspection, be sent to Ilion for routine gun testing.

This document, if approved by Sub-Committee members, will close the subject case in the files. Please indicate your approval, or disapprovals with your signature in the space provided, with
