RE: REMINGTON AND PETERS 16 GAUGE RIFLED SLUG LOADS  
INDEX #SP16RS -- INDEX #PS16RS

83

Gentlemen:

At some period from September 1, 1971 to December 1, 1972 we shipped to you a quantity of either Remington SP16RS or Peters PS16RS rifled slug loads.

We have reason to suspect that certain loading codes shipped during the above period may produce less than normal ballistics that could lead to a lodgment of the slug in the barrel.

We ask that you immediately hold any of the above ammunition remaining in your stock.

Our field representative servicing your area will contact you as soon as possible with full details and information on how to return the ammunition to us.

Your fullest cooperation will be deeply appreciated.

Sincerely yours,

REMINGTON ARMS COMPANY, INC.
