J. P. GLAS

PRODUCT SAFETY COMMITTEE MEETING
AUGUST 14, 1981

I will be on vacation on August 14, and thus will be unable to attend the subject meeting. 83

In his memo to you of July 24, R. A. Partnoy discussed the status of SAAMI-NSSF Safety Advertising (Item #6). Ron may not be aware of it, but J. P. McAndrews, E. F. Barrett, and I had a meeting with A. H. Rohlfing of NSSF several weeks ago, at which we reviewed Rohlfing's proposal to incorporate the 4 new warnings into the original 10. Rohlfing has incorporated suggestions we made that day into revised layouts and copy. He plans to review these again with us in the near future, and will then circulate them to the full SAAMI Ad Hoc Committee for approval.
