

the other one but it was a doe.
 I walk over to where it was laying
 down but it was still moving its
 head from side to side. and I thought
 it would get up and run away so
 I shot it again between the eyes and
 every thing stop moving. and that was
 my first deer. I made the gift into
 a gun sack. and I put my first rifle
 on it. as I said before your company
 did a very good job on the Remington
 242 win cal rifle. I cant wait to
 take it to orange and then into
 the woods. in case is the picture
 of my first rifle along with a letter
 a letter from proctor Blake. and
 a dip from Canada's carrier new paper.
 thank a lot.

sincerely yours
 Charles Bryer
