

126845.

I have owned and hunted with the rifle for three years and I am very please with it. It was a used rifle when I purchased same and I have done nothing to the inside of the rifle.

When I took the rifle to a local gunsmith to have the rifle check he advised I write to you as he said the Company recalled the rifle for this very reason.

I would like to have the rifle repaired as soon as possible and request your permission to return same for the needed correction.

I remain, respectfully;

Don G. Childster
