MAIN FAULT: Could not duplicate complaint. Rifle operates normally. However, disassembly of rifle revealed much about it just on under sign of barrel, recoil bracket, receiver and trigger assembly - needs good cleaning.

Trigger pull 4 1/2 Pounds; rear - left .007"

PARTS	COMMENTS				
	Rifle needs good cleaning on bottom of barrel - action				
	Rifle following option 2				
	1) To clean rifle of action with parent T.A.				
	2) To clean rifle & replace trigger assembly at a normal cost, as a gesture of goodwill if that will get the customer confident in the rifle
