Dear Sir,

As per your instructions, we are returning the Mottaw  
# AG569817 to you for repair. The gun will discharge  
"off to on" if the muzzle is held against  
The owner accidentally shot a hole in the floor  
while attempting to unload the rifle after  
he got into the truck. Don't worry about any kind of lawsuit or  
anything else. He is an honest hardworking fellow who is  
not looking for a free ride, but is seriously shittless of this  
equipment.
