INTER-DEPARTMENTAL CORRESPONDENCE

July 13, 1979

TO: JIM STEKL

FROM: R. G. SHERMAN

SUBJECT: MOHAWK 600, SERIAL NO. A6569817

Dear Jim:

Enclosed correspondence is pretty much self-explanatory regarding the gun enclosed.

Our office examination showed that this gun did follow down when slam-fired.

The trigger pull was very light.

If the safety was moved to the off position when the bolt handle was lifted and cocked, the gun would fire when the safety was pushed to its off position.

We may owe Mr. Cunningham some consideration.

I await your reply.

Best regards,
