North Powder Oregon who cleaned the gun
& went through it stating he could find
nothing wrong with it so I used the gun
after a thorough cleaning in the fall of
1988 As everyone ~~else~~ else in my family
refuses to use it after using the rifle
for several days & having a semblance
of faith in it I returned to camp
& pointing the rifle away from camp
or any one about flipped the safety
to off position upon which time the
rifle again went off tearing about a
1 inch chunk out of my thumb.

I have not taken it to a gunsmith
& do not intend to do so as I feel
the gun is a maw killer, which it would,
or could have been in four different instances
if safe handling practice had not occurred.

I do not wish to use the rifle again which
is in like new condition as we clean
and take good care of all our rifles and
I don't care to sell it to someone else putting
a death watch on them. After the
