Attn: Roger Potter

Both front and rear sights were installed by C.T. Brain of Decatur, IL. Date installed was 5/12/88, at cost of \$138.85. When trying to sight in XP-100, the rear sight (BO-MAR) wouldn't adjust over enough to hit center of target. Made special trip to C.T. Brain to fix sights. Returned home with gun, test fired, would barely hit edge of target at 25 yards.

Called Cayle Davis of Palmer, IL, informed him of problem. He replaced the rear sight with a Lyman sight because it allowed more adjustment to center it on target. I used these sights in the 1988 Masters Rehearsal Match.

After the Rehearsal Match I called Remington and informed them of my problems. They sent me to Otts' Gunsmith Service of Decatur, IL. I made two trips to Otts' one to drop gun off the other to pick it up. Otts advised me the hole in the ramp was off center. I don't know if he enlarged the hole in the ramp to center it or not. I would like to have a new ramp to replace it. He also put my Bo-Mar rear sight back on, so I could use it in the 1988 Masters. I then made another trip to Cayle Davis to return his Lyman rear sight.

I am intending to use the XP-100 in the Masters again. I will be using a scope in the next Masters. If you would please check and make sure it will accept Redfield's super magnum Proof (SMP) steel pistol base with 9 rings. If you wish to reimburse me a set of those Redfield rings and some Tam BR brass would be nice.

Below are my expenses thus far, which you requested:

C.T. Brain, Decatur, IL (217) 429-2290
Expenses - 70 miles and phone calls.

Cayle Davis, Palmer, IL (217) 526-3645
Expenses - 50 miles (2 trips @25) and phone calls, gunsmithing \$15.00

Otts' Gunsmith Service, Decatur, IL (217) 575-3469
Expenses - 170 miles (2 trips @85) and phone calls, gunsmithing \$25.00

Phone calls to Remington

Lots of ammunition used to try and sight gun in.

Very truly yours,

Dale Driskill
