Correct me if I am wrong.

I own a 6mm Remington Mohawk
600, A6252163.

Some years back, if I remember
right you had some sort of recall
on this rifle, because of pushing
the safety forward the gun would
fire. This is happening to mine

I would like to know if there
was a recall of sorts and what
I should do about it.

I have enclosed a stamped, self addressed
envelope.

Thank you

P.S. this rifle is great, that's why I want
it back in top shape.
