Dear Mr. St. John,

If you will re-read my letter, you will read that I had the rifle repaired. Call the gun repair shop in Round Rock, Texas, and they will give you the information requested as to why this rifle was malfunctioning.

You can reject payment of my repair bill but be damn lucky you didn't have a lawsuit on your hands. I talked to a man in Dripping Springs, Texas, last week who had a friend with the exact gun as mine. It malfunctioned the same way as I described my problem, except that man's friend's gun went off and killed another person. They won a major lawsuit against your company.

You may "be sorry" I had the problem and "no injuries" were sustained. La dee da — I suggest you call the Whitetail Gun Sales & Services, 1-512-255-0154. They will verify my letter.
