

22 Dec 1989

Mr. Frank Cole

I talked to Mr. Randolph-Hay
about a problem that just occurred
with this rifle. He suggested that
I send it to the Remington Arms
Co. Inc. At your attention
I will try to explain the
problem.

When I released the safety the
rifle fired without my finger on
the trigger. Some times
I cannot lock the gun all
the time & sometimes when in
lock it will fire when
closing the bolt.
