MAIN FAULT

Unable to duplicate complaint. However, trigger assembly has been grossly mis-adjusted outside factory. I see everywhere by extremely excessive (2) excessive force (3) trigger pull heavy at 6-8 pounds. Sealant missing from all adjustment screws. Bolt stop gummed up, not working properly. Also, trigger assembly has excessive grease (?) outside & inside. Owner should not alter trigger assembly adjustments!!

PARTS

COMMENTS

Offer replacement trigger assembly at 1/2 normal cost, as getting good work
