

Dear Mr. Smith,

FEB 2 1992

Jan 28, 1992

As per my phone call, I am sending my 222 Rem. Model 700, serial # 210936 to you for repair the box & bad shells.

This is my deer rifle & as a record Dec 1, 91 I shot at a deer; the bullet exploded in the gun.

It seems that the firing chamber is gone. They talked of putting another barrel on it but that would make it into a 223, which I do not want.

I am 66 yrs of age & have had this little gun for at least 10-12 yrs & they do not make this model any more.

I am sending you the bullet back; we have used Remington arms for all our guns all these years & this is the first time this has ever happened.

I would forever be grateful if you could repair my gun so I can enjoy it for a few more years.

Sincerely
Mrs Clinton Harlow
