To Whom It May Concern,

On December 27th, 1984, I was in South Texas when the following accident took place. While taking my Remington 270 (700 model) off safety, my rifle went off and blew a hole in my windshield. I have a witness and will be glad to give you any additional information you might need. After the discharge I went in the ranch house and told the hunting guide what exactly had happened. He mentioned to me that there was a law suit pending based on the same circumstances. I want you to know that I am not in any way interested in a law suit. But I am interested in having you replace my rifle along with my windshield. I also had a man look at the rifle who I might add is very experienced with guns look at the rifle. While he was checking it out it again discharged without a shell in the chamber. At that time he suggested I put the rifle up in the closet and never fire it again. I am willing for any representative to look at the gun. Please let me hear from you as soon as possible.

Sincerely,

Roy T. Harwell

Roy T. Harwell

P.S. Enclosed please find a copy of the bill recovered for windshield.
