

12-12-89

Mr. Stahl -

On Monday 12/11/89 I spoke with Roger Potter regarding a gun recall notice that had appeared in our Sunday paper here in Memphis.

After giving Mr. Potter the serial # A6697552 of his husband's .270 model 700 rifle, I was assured that his gun was not on the recall list. However, we encountered a problem with the gun during this deer season, which is the reason Mr. Potter had us ship the gun to you.

When my husband was in the deer stand, he saw a deer, raised the gun to his shoulder, RELEASED THE SAFETY, and the GUN FIRED.

Thinking he had just gotten anxious and really had touched the trigger, he tried it again, and the same thing happened. The minute he released the safety, the gun went off. Needless to say, he was scared to use the gun again, and cut short his deer trip and came home. We were going to have the gun repaired locally, but I'm glad you will get the opportunity to try and duplicate the incident.
