

RER-74

Name P. P. Barber

try to go on and it found
 what I pushed down on one of them
 and closed the hatch, and put the
 safety on. What I did after that
 was work the safety on and off about
 twenty five times trying to make
 it do it again but it would not
 repeat.

After I got home and went
 to see my brother in law. I told
 him what a scare I had. and
 the first thing he told me is that
 I should tell him what these things
 would be very concerned about it
 and they would want to know about
 these things because of the danger

The day before this happened it had
 rained and around when I was out
 there. but that night when I was
 home sleeping I thought it in the
 situation and before I could get to bed
 and it did do something I always
