

Arms Service

To whom it may concern,

My name is Jerry McPherson, I am 21 years old and I have been hunting since I was 13 years old and all I have ever shot is Remington guns. I had a model 700 Bolt action 30-06. I had it for about a year. I took my wife and two little boys to the Deer camp so I could sight it in. I shot it one time and it shot fine, I knocked off safely the second time and it fired without pulling the trigger and kicked me in my side. My side has swollen up and turned black. I took it back to Kmart on Hwy 80 Jackson, MS. To exchange it for another and they had two more guns just like it and they were the same price, so I got my money back. I haven't found me another gun yet but it will be a Remington. I just wanted to let someone know how that model gun was doing before someone get hurt with them.

Thank you
Jerry McP
