Re: Remington Model 700
No. 59982

Gentlemen:

Enclosed you will find my Remington Model 700 .222 cal., Serial Number 59982. Recently I was unable to get this rifle off safe and I thereupon manipulated the bolt and safety so that it apparently now works properly. After correcting the problem, I operated the bolt a number of times and several times in doing so when I closed the bolt and turned the bolt handle down, the firing pin went forward. Obviously, had there been a live round in the chamber, it would have discharged.

I would appreciate your inspecting this rifle and correcting any problem that you find with it and returning it to me. If payment is required prior to that, please let me know and I will immediately remit.

Very truly yours,

Richard M. Livingston
