Ilion, NY. 13357

Dear Sirs,

We are sending you one Remington model 700BDL, sn/A6693616
in 270 caliber on which the hammer will sometimes fall when the
bolt is operated, without the trigger being pulled. This
rifle was supposed to have been shipped to Remington a few
years ago by another shop with this same complaint. Please
repair and return this to us.

Thank you,

Joe McGahee
