Dear Sir,

I have a Remington Mod 700 - A DL which will go off sometimes when you take it off safety. It does not do it each time you take it off safety. you never know when its going to go off. It almost shot a fellow hunter in the foot.

Do you want this gun returned to you for repair? This gun is eight years old but has been shot less than a hundred times.

Thank you very much for your cooperation.

yours truly,
Louis J. Mader
