

Dear Sir,
 I am in Estherville, Montana
 and 660. 1st St. N.E.

A friend of mine was with me
 my gun. While the car was being
 to unload the car was being
 shot a hole in the rear of the car.
 He says he did not touch the
 trigger.

I did not know there
 was a possibility of something
 wrong with the gun. I read
 an article in the paper
 regarding.

Would you please let me
 know if the gun was
 the gun to the car. I have
 some sort of indication that
 should be made. I have
 for the car. I have
 truck.

Thank you for your
