MAIN FAULT

Handwritten: Still mfg. 1973. Upon receipt rifle inoperative. Trigger would not move or reset, bolt stop also would not move upward when opened. Examination revealed action and trigger assembly covered with a heavy greasy, dark sticky substance. Internal parts also gummed up.

PARTS

COMMENTS

Handwritten: Trigger has been removed from the trigger adjustment & stop screw indicating they have been tampered with outside the factory. Poor maintenance.

Handwritten: Replace trigger mechanism. Clean action at 1/2 normal speed. Cost, no question of good work.
