

Warranty. I don't want any replaced parts or new trigger groups. I want a new rifle. I'm 30 years old & I have been hunting all my life with Remington rifles. I never had an experience like I had that day. I love my new model 700 BDL 7 m. m mag. But I will not accept the same rifle under any conditions because I could never hunt or trust the same rifle again. I had to remove my scope from the rifle. It was mounted by a gunsmith with lock tight because it was a magnum rifle, and two of the scope mount screws had to be drilled out. I will not accept responsibility for the screws, because if the rifle would not have broke the mounts, I would have never had to come in. I am enclosed a receipt from the person that ordered it.
