

My Blessings! My Friend Ronnie Bell
 of SALEM VA. sent his 30.06 to Remington
 ALSO. Remington replaced the safety
 on his Rifle, One time he had a
 jamming problem. I called Remington
 to see if they have had a recall.
 NO ONE could tell me that they
 have had one. I love my Remington
 Bolt 30.06 I ALSO have a model 7
 auto. And a lot of my friends
 in our hunt club has Remington
 I thought seriously about selling
 my Rifle because of this problem
 But got to thinking. That it sure would
 be scary if someone less cautious than
 I would have this gun. Ah I would
 been standing around if when this
 has happened! So. I am sending it to Rem.
 instead of a micky mouse gun shop
 Please let me know if you can
 convert my safety over to the N
 style. But most of all was it
 my problem, or is it something
 else. Secondly if you could check
