Mr. Roger Potter, Supervisor
Special Services Dept.
Remington Arms, Inc.
14 Hoefler Avenue
Ilion, New York. 13357

Dear Roger,

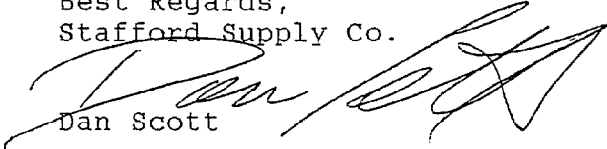

I must apologize for the delay in sending you this letter, and the other items which you requested. However, since I am in the Air Force Reserve, I was called to active duty several months ago, and spent the past few months on "vacation" courtesy of my Uncle & the USAF. In my particular line of work, it was most interesting operating in Desert Shield/Storm. Unfortunately, I must now return to the more mundane matters of civilian life.

As we previously discussed, I was to send you a copy of the original invoice for the XP100, SN:B7522755, and a copy of our FFL. As requested, please find both enclosed.

You will recall that you were going to send (or credit us) a refund for the XP100 in question, and when we spoke several months ago, you placed an order for us with the Custom Shop, and they gave you an order number, for a custom heavy barrel XP100 in the 250 Savage chambering. At that time you said that it would be five to six months before the custom XP100 was ready. I would think that the time for delivery of the custom weapon would be this month or possibly May.

Thank you for all of your help in this situation, and I look forward to your reply.

Best Regards,
Stafford Supply Co.

Dan Scott
