	Fred Martin -				
	This is the gun #06853000 that we want				
	checked for accuracy. Customers complaint				
	was that gun groups around the 3" area at				
	100 yds. and an occasional flyer 6 to 8" out.				
	Gun has been glass bedded by others - check				
	this job out on bottom of receiver. Trigger				
	pull has been changed to about 1# gun will slam				
	fire.				
Thanks,					
Stan
