

March 17 89

Sir -

I Bought XP100 Ser B7522509 For Christmas Present. I shot it 20 rounds then seen you Recall notice - I was very upset as I had Bought a new XP100 - not a defective dangerous Pistol - AT this Date you still have the Pistol - I will never be satisfied with a repaired defective Pistol, as in good faith I bought a new one and will write, 14 m.s. of this fact - no more Remington-Union - do not send Belt Buckle as I would not use it. This gun laid on dealer's shelf for over 1 year and was not recalled your Company was aware of the serial no. of the defective guns - But wanted to see a customer to buy it. You sold a defective dangerous pistol and you know it.
