

Jim -

This is in regards to the
700 BDL Rifle in 17 cal. I talked
to you about ~~it~~ on Feb. 1, 1990.
The rifle fires when you release
the safety with the barrel pointing
down.

The shell cases with the perforated
primers, unfortunately I cannot find
the two cases I packed in the
rifle box are out of the same box
of ammunition. I packed the box
also.

~~Thanks for your help in~~
this matter.

Sincerely

Alab W. Lane
