

③

and returned home.

I disassembled the bolt and washed it out with solvent and put a dry lubricant in it. (powdered graphite)

The gun appears to be O.K. again but I am afraid to take a chance with since I have to go about 300 miles to where I can hunt.

I am returning it per your instructions. I had to borrow this box and would appreciate it being returned in same.

Respectfully,
H. C. Walker
