

Whom + May Concern:

Enclosed please find a Remington 370. I  
feeling this gun because there have  
several problems with it and I  
sider it to be unsafe to use. One  
ne when the safety was clicked off  
e gun shot without touching the trigger.  
cently the gun was shot and the  
igger released but the gun did not  
ire until about ten (6) seconds later.  
There has been about two (2) boxes of  
shells shot through this gun and I do  
not feel that it should be working in  
such an unsafe manner. Please check  
the gun completely and repair it, if  
possible.

Thank you,

Phil Norton
