

2000
PROBLEM WITH THIS RIFLE? THE ONLY
WAY IT WILL SHOOT IN FREEZING CONDITIONS
IS IF THERE IS ABSOLUTELY NO OIL IN
THE TRIGGER MECHANISM AND YET IT
WORKED GOOD THE FIRST YEAR IN THE
SAME CONDITIONS. WHAT DO I DO?

SINCERELY,

Skip White

I HAVE MANY REMINGTON RIFLES
AND HAVE NEVER A PROBLEM WITH
ANY OTHER

ALSO, IF, WITH THE TRIGGER MECHANISM
OILED, I PUT IT IN THE FREEZER AND AFTER
IN GETTING VERY COLD, TRIED TO PULL
THE TRIGGER AND IT WOULD NOT FIRE, IT
WOULD SOMETIMES FIRE BY ITSELF, FIVE
OR SIX SECONDS LATER,

THANK YOU

Skip White
