Attn: Service Dept

Dear Sirs:

I am sending you this rifle in response to the 60 minutes show. I have noticed that taking the safety off has caused the gun to discharge on two occasions. I enjoy this firearm and do not wish to sell it because of this. I probably could not any way. Therefore, I would greatly appreciate if you could either repair this defect or replace this safety with a tang type safety. I would prefer a tang safety if at all possible. The existing safety is very stiff and if you have to repair it please adjust it to make it easier and quieter to release. My address and phone number are include below. Thank you for prompt attention to this matter.

Sincerely:
Jeffrey Wiseman
