Dear Mr. Gray,

We were sorry to learn about the unfortunate incident you experienced with your father's Model 700. We are certainly glad that no one was injured, and that you are anxious to get back to enjoying the shooting sports.

Per my conversation with your father, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for examination and replacement of the trigger assembly under our Safety Modification Program. I have included some further information from our website pertaining to this program. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. **Please also write "Supry" on the small ends of the box to help us expedite the inspection of your firearm.** On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

A second shipping label has been included if you wish to send your other Model 700 in for inspection. Once we receive the firearms, our Product Service Administrator, Chris Mitchell will contact you with the results of our inspection. She can also be reached at 800-243-9700 ext 8684. We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson
