C				

11/29/10 Per call from Aadnan, a few weeks ago he was hunting in a boat and had his 7 yr old with him when the rifle fired on safety release causing a cut to his nose and bruising. It did not require stitches and he did not go to the dr. He left the rifle in the boat as he was scared to touch it and during that time it caused some surface rust on the barrel. There was not rust on it when he was using it during this incident.cm
