Subject: #4915, Model 770

Dear Mr. Engle,

Per our phone conversation, is a prepaid UPS ground shipping label for shipment of the firearm to our factory for inspection. Please include a copy of the attached letter with the firearm. **The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Please mark the ends of the box with "Supry".** I will contact you after inspection to resolve.

I apologize for the inconvenience that this incident has caused and I hope that these actions will keep you as a loyal Remington customer.

Sincerely,

Christy Mitchell

COMMENTS: Please Read Below. Thanks

This gun was firing when it wasn't suppose to. I shot it 2 times and it shot fine, the next shot I pulled the trigger and nothing happened so I went to put the safety on and then the gun went off. I wasn't expecting it, and wasn't prepared either. I shot it one more time and again I pulled the trigger and nothing happened, so I went to put the safety on and it was stuck for some reason, so I went to eject the shell and as soon as I touched the bolt, the gun went off. This could have really hurt someone or killed them if I wasn't paying attention and knew what I was doing.

I would really just like to have a new gun, because I believe this one is really messed up. I just sold a perfectly good Winchester gun, and bought a new Remington
