January 21, 1947

TO: C. S. Hilliard  
 FROM: V. G. DeRous  
 SUBJECT: M/721 PRODUCTION AIDS

A short time ago four orders were given you for estimating. These orders were requested from Department 74, Model 721 Processing, to construct certain production aid items.

Through error, these orders were cleared through your department to be charged to Department 74. These orders should be charged to the Technical Project, PB-721-5, Production Aids.

If you will advise us the amount of the orders in question, we will create a repair order to cater the transfer of the charges from Department 74 to the PB-721 Project.

  
 V. G. DeRous  
 Project Engineer  
 Technical Department
